## About Me:

Currently I am enrolled at Yoobee School of Design finishing up a diploma in web and ux design. After studying graphic design for two years, I decided I wanted to switch into web design after a course I took in Python while I was at Massey, as I really really enjoyed it.

When my course is over I'm going to be after getting as much experience as possible in web whether it's freelance or an internship.

## Skills:

Design is currently my strongest skill with a special attention to typography and drawing which I like to do a lot in spare time (back when I had some).

So far in the Yoobee Course I have learned html, css, a fair amount of javascript and a bit of git etc, looking at working in this area so will be wanting to expand on these skills.

## Uni Experience:

**1 year** - diploma in web and ux design at Yoobee School of Design (current study).

**1 year** - visual communication design at Massey Wellington.

**1 year** - graphic design at the Royal Academy of Art (KABK), The Hague, Holland.

**2 years** - working and traveling (Palmerston North, London, Glasgow) straight after High School.
